

JOHN NYAGAKA

AI Data Specialist | Web Developer | Data Analyst | Technical Writer | Machine Engineer & Electrician

Mombasa, Kenya • nmwengajohn@gmail.com • +254 742 195 041 • linkedin.com/in/johnnmwenga

PROFESSIONAL SUMMARY

Reliable, detail-driven AI Data Specialist, Data Analyst, and Web Developer with 5 years of combined experience in writing, editing, content creation, and research, and 3 years focused on high-volume AI training-data annotation, data analysis, and technical documentation, completed remotely alongside full-time roles. Brings hands-on experience as a Machine Engineer and Electrician, complemented by proficiency in mechatronics, web development, game modding, video editing, audio transcription, data entry, site management, virtual assistance, and social media management. Consistently maintains 98%+ accuracy while translating complex technical and AI concepts into clear, audience-tailored documentation and content.

PROFESSIONAL EXPERIENCE

Web Developer — Toptal (Freelance & Contract Projects) *Jul 2024 – Present*

Part-time • Remote

- Built responsive websites using HTML5, CSS3, JavaScript, and WordPress.
- Customized WordPress themes, plugins, and WooCommerce stores.
- Integrated REST APIs, payment gateways, and third-party services.
- Optimized SEO, Core Web Vitals, performance, and mobile responsiveness.
- Managed hosting, DNS, SSL, domains, backups, and deployments.
- Resolved frontend, PHP, JavaScript, and browser compatibility issues.
- Converted UI designs and wireframes into functional web interfaces.
- Used Git/GitHub for version control and deployment workflows.

Independent Mod Developer — Stardew Valley Modding Community *2024 – Present*

Remote, Self-Directed

- Developing and publishing gameplay/content mods using SMAPI and Content Patcher; edited game assets (sprites, dialogue, JSON data).
- Testing mods for cross-version compatibility and resolving user-reported conflicts.
- Writing installation guides, changelogs, and troubleshooting docs for public releases.

Freelance AI Data Annotation & Quality Assurance Specialist — Multiple Data-Services Platforms (Scale AI, Appen, Lionbridge AI, Remotask, Surago AI) *2023 – Present*

Remote, Part-time

- Regularly assigned and completed high-volume annotation and labeling tasks across image, text, audio, and video datasets used to train large language models, computer vision, and NLP systems, alongside full-time technical roles.
- Maintained 98–99%+ accuracy across tens of thousands of completed annotation tasks, consistently meeting or exceeding platform quality benchmarks.
- Reviewed peer annotators' submissions and documented edge cases, contributing quality-assurance feedback and reference guides for complex or ambiguous scenarios.
- Mentored and trained 25+ junior annotators on labeling standards, tooling, and quality best practices across concurrent projects.

Freelance Technical Writer, Data Entry & Content Reviewer — Official Stardew Valley Discord

(discord.gg/stardewvalley) *Feb 2024 – Present*

Remote, Part-time

- Wrote patch notes, changelogs, and user-facing documentation for indie game mods and small studio releases.
- Reviewed and copyedited technical manuscripts for publishing houses and technology publications ahead of release.
- Wrote FAQ documentation, user guides, and support scripts that helped reduce documentation-related support queries.

Senior Data Entry & Content Specialist — HashiCorp *Present*

Remote, Part-time

- Maintained precision data entry for 50+ training video tutorials and related datasets, achieving 98%+ accuracy in database records.
- Labeled and organized video metadata to support machine learning dataset preparation.

- Managed inventory databases for digital assets supporting accurate, audit-ready record-keeping.

Overall Machine Engineer & Electrician — Heritage Hotel (Voyager Beach Resort) *Jul 2025 – Jan 2026*

- Installed, maintained, and repaired electrical systems, equipment, and machinery within the hotel facility.
- Conducted routine inspections and preventive maintenance on electrical and mechanical systems, diagnosing faults, breakdowns, and technical failures.
- Responded promptly to maintenance requests from hotel departments to minimize downtime, while maintaining accurate repair and maintenance records.

Overall Machine Engineer & Forklift Mechanic — James Finlay *Jul 2024 – Feb 2025*

- Performed routine maintenance and troubleshooting on blending equipment and forklifts to ensure optimal performance and reduce downtime.
- Read and interpreted technical manuals and schematics for blending machinery and forklifts to guide repairs and operational improvements.
- Maintained accurate records of maintenance activities and spare-parts inventory, and conducted daily machine inspections to ensure safety compliance.

Overall Machine Engineer & Workshop Helper — Global Tea Gold Crown Foods (EPZ) *Jul 2023 – Mar 2024*

- Performed regular machine maintenance, monitored factory machines, and ensured compliance with safety regulations in tea packaging operations.
- Carried out workshop machining (turning, milling, drilling), welding and fabrication, and assembly/disassembly of mechanical systems.
- Supported prototyping and CAD design work, identifying and resolving operational issues.

Machine Engineer — Beta Metal *Apr 2022 – May 2023*

- Repaired and troubleshot machinery, and carried out assembly and disassembly of mechanical systems.
- Supported prototyping and CAD design, and applied fabrication techniques.

EDUCATION

Bachelor of Science, Mechanical Engineering — 2020 – 2024

Technical University of Mombasa

Certificate in Computer Applications & Technology (Cyber Security) — 2018 – 2019

Brims Computer College

Online Coursework: Data Analysis, Data Science, Machine Learning, Deep Learning & NLP

AI for Marketing Certificate — 2025

HubSpot Academy

Certificate in Project Management — 2025

Kenya Certificate of Secondary Education — 2017 – 2020

Maseno School

CORE COMPETENCIES

Web Development: HTML5, CSS3, JavaScript, WordPress, WooCommerce, PHP, REST API Integration, Payment Gateway Integration, SEO & Core Web Vitals Optimization, Responsive Design, Git/GitHub, Hosting/DNS/SSL Management

Data Analysis: Data Analysis, Data Visualization, Statistical Analysis, Spreadsheet Modeling, Data Cleaning & Verification, Reporting, Machine Learning & NLP Fundamentals

Mechanical & Electrical Engineering: Electrical Systems Installation & Repair, Preventive Maintenance, Machine Troubleshooting & Diagnostics, Forklift Maintenance, Welding & Fabrication, Machining (Turning, Milling, Drilling), CAD Design & Prototyping, Generator/Pump/HVAC Systems, Safety Compliance

AI Data Annotation: Dataset Labeling, Image Annotation, Text Classification, Audio Transcription, Video Annotation, Quality Assurance, Edge Case Documentation

Data Entry & Processing: High-Volume Data Entry, Database Management, Spreadsheet Optimization, Data Verification, Accuracy Audits, CRM Data Entry

Technical Writing: API Documentation, Technical Guides, User Manuals, FAQ Development, Style Guide Creation, Content Review

Customer & Chat Support: Live Chat Support, Customer Service, Issue Logging, Helpdesk Management, Response Time Optimization

Tools & Platforms: Scale AI, Appen, Lionbridge, Remotask, Surago AI, Zendesk, Intercom, Freshchat, Google Docs, Slack, Asana, Jira

Remote Work: Self-Motivated, Reliable Home Office Setup, Time Zone Management, Virtual Team Collaboration

CERTIFICATIONS

- Professional Technical Writing Certification — Google Career Certificates
- Adobe Certified Associate – Video Production — Adobe
- DaVinci Resolve Professional Certification — DaVinci Resolve
- Certified Remote Team Leadership — LinkedIn Learning
- AI for Marketing — HubSpot Academy (2025)
- Project Management Certificate (2025)
